

Hi-Light®

Liquid Spray Pattern Indicator

- * See where you spray
- * Improves applicator safety
- * Dissipates under sunlight or moisture
- * Indicates skips and overlaps

Hi-Light® spray pattern indicator is an industrial-strength, temporary colorant used for effectively marking spray applications. By adding Hi-Light to spraying systems, spray application personnel are able to accurately and uniformly apply pesticides and liquid fertilizers. Hi-Light provides the applicator with an economical marker for broadcast, backpack or general spot treatment. It can be used with spotgun, hand equipment, small broadcast equipment, boom-jet and other spray application equipment. Hi-Light washes off equipment, clothing and skin with soap and water. And it helps improve applicator safety.

Hi-Light is compatible with most chemical compounds and is used in applications ranging from broadcasting of soil sterilants to spot treating with brush control products.

Suggested Use Rate Based Upon Type of Area Treated

Area To Be Treated	Application Rate Per 100 GAL of Solution
Gravel, Bare Ground, Substations	6-12 oz (175-355 ml)
Roadside rights-of-way, Industrial vegetation	10-16 oz (295-475 ml)
Utility rights-of-way, Forestry, Railroad use, Brush	12-32 oz (355-945 ml)

Suggested Use Rate Based Upon Spray Tank Size

Tank Size	Suggested Amount
1-3 gallons	0.5-2 oz (15-60 ml)
30 gallon	6-10 oz (177-296 ml)
100 gallon	16-32 oz (473-946 ml)

CAUTION: KEEP OUT OF REACH OF CHILDREN. Do not take internally. In case of eye contact, flush with large amounts of water and consult a physician. In case of ingestion, dilute with water and consult a physician. Rinse contents into the spray tank and crush container prior to disposal.
