

# ***T.rod X***®

## **Ground Assessment Tool**

### **From the ground up...**

With the collaboration of the USGS, Alpha Mach has built a multi-sensor temperature data logger, able to withstand the harshest deserts, or deepest riverbeds: the *T.rod X*®. It uses multiple temperature data loggers in a very resistant and waterproof PVC housing, for multiple level data collecting.

# T.rod X<sup>®</sup>

## Ground Assessment Tool

### ▶ **Wi-Fi Communication**

Android and Apple compatible

### ▶ **Fully Customizable** Up to 3m in length | 4 to 20 fully calibrated temperature data loggers

▶ Remote communication cable option

### ▶ **Completely Waterproof**

▶ **Temperature** -40°C to 85°C

▶ **Resolution** 0.0625°C

▶ **Precision** ±0.25°C

▶ **Memory** 130 000 values

Battery Life 4 years
