

Safety Data Sheet

1 IDENTIFICATION

Product Identifier:

Product Name: TreeMec® Inject
EPA Reg. No.: 69117-12
Synonyms: None

Recommended Use: Systemic Insecticide and Miticide

Use Restrictions: Do not apply to trees that may be harvested for food consumption by humans or used in animal feed.

Supplier Information: ArborSystems, Inc. d/b/a ArborSystems
10168 L Street
Omaha, NE 68127 USA
Toll Free: 800.698.4641
Phone: 402.339.4459
Fax: 402.339.5011
Email: mike@arborsystems.com
Website: www.arborsystems.com

Emergency Phone Number: 1.800.222.1222 (Medical)

2 HAZARDS IDENTIFICATION

Classification of the substance or mixture-

Classification:

Classification of TreeMec® Inject

Hazard Class	Category	Hazard Statement
Acute Toxicity – Oral	4	H302
Eye Irritant	2	H319
Aquatic Toxicity-Chronic	2	H411

Full text of H-phrases: see table in "Label elements" below

Adverse physicochemical, human health and environmental effects: No additional information available

Label elements-

GHS Labeling Elements:

Hazard pictograms (CLP):

GHS07

GHS09

Signal word: WARNING

Hazard statements: H302 – Harmful if swallowed

GHS Labeling Elements-

H319 – Causes serious eye irritation

H411 – Toxic to aquatic life with long lasting effects

Precautionary statements (prevention):

P264 – Wash thoroughly after handling

P270 – Do not eat, drink or smoke when using this product

P280 – Wear eye protection/face protection

P273 – Avoid release to the environment

Precautionary statements (response):

P301+P312 – IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

P330 – Rinse mouth

Safety Data Sheet

P305+P351+P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313 – If eye irritation persists: Get medical advice or attention.

P391 – Collect spillage

Precautionary statements (disposal): P501 – Dispose of contents/container in accordance with federal, state and local regulations.

3 COMPOSITION / INFORMATION ON INGREDIENTS

Component Name	CAS Number	Percent
Emamectin Benzoate	155569-91-8	4.00%
Other Ingredients	Trade Secret	96.00%

Contains 0.36 lb. Emamectin per gallon (43 g/L)

4 FIRST-AID MEASURES

Description of first aid measures-

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice if irritation develops or persists.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person

IF INHALED: Move to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

First-aid measures – general: Early signs of intoxication include dilation of pupils, muscular incoordination, and muscular tremors. Vomiting within one-half hour of exposure can minimize toxicity following accidental ingestion of the product; rapidly after exposure (<15 minutes) administer repeatedly medical charcoal in a large quantity of water or ipecac.

If toxicity from exposure has progressed to cause severe vomiting, the extent of resultant fluid and electrolyte imbalance should be gauged.

Appropriate supportive parenteral fluid replacement therapy should be given, along with other required supportive measures (such as maintenance of blood pressure levels and proper respiratory functionality) as indicated by clinical signs, symptoms, and measurements. In severe cases, observations should continue for at least several days until clinical condition is stable and normal. Since emamectin benzoate is believed to enhance GABA activity in animals, it is probably wise to avoid drugs that enhance GABA activity (barbiturates, benzodiazepines, valproic acid) in patients with potentially toxic emamectin benzoate exposure.

5 FIRE-FIGHTING MEASURES

Extinguishing media-

Suitable extinguishing media: Use dry chemical, foam or CO2 extinguishing media

Unsuitable extinguishing media: High volume water jet. (Water contamination risk from runoff)

Special hazards arising from the substance or mixture-

Fire hazard: Toxic and irritating compounds may be released upon exposure to fire or intense heat

Explosion hazard: Product is not explosive.

Reactivity: The product is stable at normal handling- and storage conditions.

Advice for firefighters-

Firefighting instructions: Evacuate nonessential personnel from the area to prevent human exposure to fire, smoke, fumes or products of combustion. Prevent runoff from entering drains, sewers or waterways. To fight large fires, wear full protective clothing and NIOSH approved self-contained breathing apparatus with full-face piece operated in the positive pressure/demand mode. Full firefighting turnout gear (bunker gear): Any air respirator supplied with full face piece and operated in a pressure-demand or other positive pressure mode in combination with a separate escape supply. Any self-contained breathing apparatus with a full face piece.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures-

General measures: Control the spill at its source. Contain the spill to prevent from spreading or contaminating soil or from entering sewage and drainage systems or any body of water. Clean up spills immediately, observing precautions outlined in Section 8. Cover entire spill with absorbing material and place into compatible disposal container. Scrub area with hard water detergent (e.g. commercial products such as Tide, Joy, etc.)

Pick up wash liquid with additional absorbent and place into compatible disposal container. Once all material is cleaned up and placed in a disposal container, seal container and arrange for disposition.

For non-emergency personnel-

Protective equipment: Wear appropriate personal protective equipment (PPE): Eye and face protection, coveralls, gloves, boots.

Safety Data Sheet

Emergency procedures: Avoid contact with spilled material

For emergency responders-

Protective equipment: Wear appropriate personal protective equipment (PPE): Eye and face protection, coveralls, gloves, boots.

Environmental precautions-

Prevent material from entering sewers, waterways, or low areas. Do not allow material to contaminate water systems.

Methods and material for containment and cleaning up-

Methods for cleaning up: Ventilate air. Cleanup personnel require protective clothing and respiratory protection.

7 HANDLING AND STORAGE

Precautions for safe handling-

Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove personal protective equipment immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing. Remove clothing/PPE immediately if material gets inside. Wash thoroughly and put on clean clothing.

Conditions for safe storage, including any incompatibilities-

Storage conditions: Store the material in a well-ventilated, secure area out of reach of children and domestic animals. Keep from freezing. Do not store food, beverages or tobacco products in the storage area.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Personal protective equipment-

Eye/Face Protection: To avoid contact with eyes, wear chemical goggles or shielded safety glasses. An emergency eyewash or water supply should be readily accessible to the work area.

Skin Protection: To avoid contact with skin, wear long pants, long-sleeved shirt, socks, shoes and chemical resistant gloves (Category C such as barrier laminate; butyl rubber \geq 14 mils; nitrile rubber \geq 14 mils; or neoprene rubber \geq 14 mils). An emergency shower or water supply should be readily accessible to the work area.

Respiratory Protection: Inhalation potential is low due to the method of application. If vapors or mists are present, wear NIOSH approved air-purifying respirator with cartridges/canisters approved for use against pesticides.

General Hygiene Considerations: Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material: 1) do not store, use and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored; 2) wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics or using the toilet.

Exposure controls-

Exposure limits have not been established for the active ingredients in this product. Other ingredient exposure limits are listed below, where applicable:

Tetrahydrofurfuryl alcohol (CAS No. 97-99-4)

AIAH – Workplace Environmental Exposure Levels (WEELs – TWA) – 0.5 ppm

9 PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties -

Appearance: Hazy, amber liquid

Odor: Mild characteristic

pH (1%): Not applicable

Evaporation rate (butyl acetate=1): No data available

Melting point: No data available

Freezing point: No data available

Initial boiling point: No data available

Flash point: 200.66°F

Auto-ignition temperature: Not applicable

Decomposition temperature: No data available

Flammability (solid, gas): Not applicable

Vapor density at 20 °C: No data available

Relative density: 8.83 lbs/gal (1.06 g/mL)

Density/bulk density: Not applicable

Solubility: Miscible with water

Viscosity, kinematic: 37.3 mPa.s at 20 °C

Viscosity, dynamic: No data available

Explosive limits: Not applicable

Upper/lower flammability: Not flammable

Safety Data Sheet

Partition coefficient: n-octanol/water: No data available

10 STABILITY AND REACTIVITY

Reactivity: The product is stable at normal handling and storage conditions.

Chemical stability: Stable under normal conditions.

Possibility of hazardous reactions: Hazardous polymerization will not occur.

Conditions to avoid: Protect from heat.

Incompatible materials: Strong oxidizers

Hazardous decomposition products: May produce toxic or irritating gases under extreme heat or fire conditions.

11 TOXICOLOGICAL INFORMATION

Information on toxicological effects-Acute toxicity data for TreeMec® Inject are provided below:

Inhalation: Acute LD₅₀ = 5.04 mg (4h).

Eye Contact: Maximum average score = 28; opacity clearing by day 14 and irritation clearing by day 7.

Skin Contact: Dermal LD₅₀ = 5050 mg/kg. Irritation score = 0.3 (out of a possible 8.0); not a skin irritant. Not a dermal sensitizer.

Ingestion: Acute LD₅₀ = 1030 mg/kg.

Information on Toxicological Effects:

Symptoms: May cause redness and tear of the eyes.

Chronic/sub-chronic toxicity data for TreeMec® Inject is not available. Data for active ingredient is provided below:

Emamectin Benzoate-

Carcinogenicity: Emamectin Benzoate is not listed as a carcinogen by IARC, NTP, OSHA or ACGIH.

Reproductive & Developmental toxicity: Reproductive toxin in animal studies only at doses acutely toxic to the maternal animal.

Neurotoxicity: Emamectin Benzoate affects the central nervous system in animals. Tremors and nerve lesions observed at lowest dose tested in rabbits.

Mutagenicity: Emamectin Benzoate is not genotoxic or mutagenic.

Other: Bladder changes reported in rats. Ingestion results in central nervous system effects such as muscle tremors, decreased activity, ataxia, and dilated pupils.

12 ECOLOGICAL INFORMATION (NON-MANDATORY)

Toxicity-

Ecotoxicological Summary: TreeMec® Inject is highly toxic to aquatic organisms and bees. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment wash water.

Ecotoxicity data: Ecotoxicity data are not available for TreeMec® Inject. Active ingredient data are given below:

Emamectin Benzoate

Fish (Rainbow Trout 96 hr.) LC50: 0.174 mg/L

Daphnia (48 hr.) EC50: 0.001 mg/L

Green algae (5-day) EC50: >0.0039 mg/L

Acute toxicity to Honey bee LD50 0.0036 µg/bee (Highly toxic to bees)

Acute toxicity mallard ducks, 14-day 46 mg/kg

Persistence and degradability: This product is not readily biodegradable.

Bioaccumulative potential: Aquatic hydrolysis, volatilization, adsorption to sediments, and bioconcentration are not expected to be significant.

Mobility in soil: No additional information available.

Results of PBT and vPvB assessment: No additional information available.

13 DISPOSAL CONSIDERATIONS (NON-MANDATORY)

Waste treatment methods-

Pesticide Disposal: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, if allowed by state and local authorities Stay out of smoke from burning container.

Safety Data Sheet

14 TRANSPORT INFORMATION (NON-MANDATORY)

Not Regulated by US DOT or Canadian TDG for ground shipment.

Ground transport: Not Regulated by US DOT. Not Regulated by Canadian TDG.

Transport by sea (IMDG): UN 3082; ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Emamectin Benzoate); 9; III; Marine Pollutant

Air transport (IATA): UN 3082; ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Emamectin Benzoate); 9; III

Additional Air, Sea and International Transportation Information:

UN-No.: 3082

Proper Shipping Name: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Emamectin Benzoate)

Transport document description: UN 3082 ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Emamectin Benzoate), 9, III

Class (UN): 9

Hazard labels (UN): 9

Packing group (UN): III

Marine Pollutant (Y/N): Y

Dangerous for the environment:

15 REGULATORY INFORMATION (NON-MANDATORY)

FIFRA Information: This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes substantial but temporary eye injury. Harmful if swallowed. Do not get in eyes or on clothing. Wear protective eyewear such as goggles or safety glasses. Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If Swallowed: Immediately call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

ENVIRONMENTAL HAZARDS

This product is highly toxic to fish, mammals and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater. This product is highly toxic to bees exposed to direct treatment or residues on blooming trees.

SARA 313 Regulated Chemical(s): Not applicable

Title III hazard classification:

Acute Health Hazard: Yes

Chronic Health Hazard: No

Fire: No

Reactivity/Physical hazard: No

Pressure: No

CERCLA/DOT Reportable Quantities (RQ): Not applicable.

Canadian Regulatory Information: This product has been classified in accordance with the hazard criteria of the CPR and the MSDS contains all the information required by the CPR. WHMIS Classification: D2B – Toxic

16 OTHER INFORMATION

Safety Data Sheet

The information given here is not necessarily exhaustive but is representative of relevant, reliable data.

Follow all local/regional/national/international regulations.

Please consult supplier if further information is needed.

All tests were conducted following OECD guidelines for Good Laboratory Practices (GLP).

This Safety Data Sheet (SDS) serves different purposes than and DOES NOT REPLACE OR MODIFY THE EPA-APPROVED PRODUCT LABELING (attached to and accompanying the product container). This SDS provides important health, safety, and environmental information for employers, employees, emergency responders and others handling large quantities of the product in activities generally other than product use, while the labeling provides that information specifically for product use in the ordinary course. Use, storage and disposal of pesticide products are regulated by the EPA under the authority of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) through the product labeling, and all necessary and appropriate precautionary, use, storage, and disposal information is set forth on that labeling. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Although the information and recommendations set forth herein (hereinafter "Information") are presented in good faith and believed to be correct as of the date hereof, ArborSystems, Inc. makes no representations as to the completeness or accuracy thereof. Information is supplied upon the condition that the persons receiving same will make their own determination as to its suitability for the purposes prior to use. In no event will ArborSystems, Inc. be responsible for damages of any nature whatsoever resulting from the use of or reliance upon information. NO REPRESENTATIONS OR WARRANTIES, EITHER EXPRESS OR IMPLIED, OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OF ANY OTHER NATURE ARE MADE HEREUNDER WITH RESPECT TO INFORMATION OR TO THE PRODUCT TO WHICH INFORMATION REFERS.
